

Appendix K: Regional Reference Tables and Planning Matrices

The blueprint’s twelve reference matrices — the ten-region breakdowns and planning detail behind each chapter.

The twelve tables gathered here are the blueprint’s reference matrices: the ten-region breakdowns and deep planning detail that support each chapter’s argument. They sit together so the narrative reads without interruption, and so planners, councils and researchers find the full data in one place. Each entry notes its home chapter. The same tables are available as CSV files (k1–k12) in the data pack at imaginingcameroon.org.

Table K.1: CREATE-OWN-GROW Implementation Across Regions. (From Chapter 3.)

Region	Project	Council Role	CREATE-OWN-GROW Link	Impact	Key Success Factor
South West	Bangem land titling	Clan-council partnerships	OWN	500% tourism growth	Formal partnership agreement respecting traditional authority and democratic oversight
South West	Tombel plantain processing	Zone designation & permits	CREATE	2.4B CFA exports	Council-provided infrastructure (water, power) to attract private investment
Far North	Maroua solar co-operative	Traditional leader management	GROW	60% energy cost reduction	Co-operative model managed by trusted local leaders
North West	Kumbo road rehabilitation	Direct contracting	(Enabler)	40% cost savings	Direct community monitoring of contractors and materials
Centre	Sangmélima cocoa warehouse	Storage infrastructure	CREATE	30% post-harvest loss reduction	Council-funded secure storage, offering fair rental rates to farmers
North West	Batibo honey co-operative	Quality control & branding	CREATE	200M CFA annual revenue	Transparent, council-mediated revenue-sharing agreement codified in a bylaw

Source: PNDP CDP Impact Reports (2023); Field Surveys

Table K.2: Regional Energy Solutions Matrix. (From Chapter 4.)

Region	Primary Resource	Technology	Hyper-Local Example	T+8 Target
Adamawa	Solar/Wind	Hybrid systems	Ngaoundéré cattle coop cooling	100% access
Centre	Solar/Biomass	Rooftop Solar & Waste-to-Energy	Yaoundé municipal waste plant	100% access
East	Mini-Hydro	Pico-hydro systems	Lom River community project	100% access
Far North	Solar	Micro-grids with storage	Maroua solar co-operative	100% access
Littoral	Natural Gas	Expansion of existing grid	Douala industrial zone	100% access
North	Solar	Medium-scale PV plants	Garoua industrial grid	100% access
North West	Mini-Hydro	Run-of-river turbines	Katsina River (Menchum Valley) project	100% access
West	Mini-Hydro/Biomass	Hybrid micro-grids	Bafoussam agro-processing hub	100% access
South	Biomass/Mini-Hydro	Gasification & Pico-hydro	Ebolowa cocoa waste plant	100% access
South West	Biomass / Mini-Hydro	Gasification plants / Run-of-river	Manyu River project / Nguti plantain waste plant	100% access

Table K.3: Regional Implementation Framework for Human Capital. (From Chapter 5.)

Region	Leapfrog Opportunity	Pragmatic, Costed Initiative	Primary Financing Mechanism	Global Inspiration
Adamawa	Livestock value-addition	Mobile Meat & Dairy Processing Units (Cost: 300M CFA/unit)	Climate Finance, Citizen Equity	Uruguay's mobile abattoirs
Centre	GovTech & transparency	GovTech Lab: Tech incubator for civic tech apps (Seed: 1B CFA)	NARC Initiative, Diaspora Bonds	Estonia's e-governance model
East	Biodiversity & ecotourism	Community Ranger & Ecotourism Guide Training (Cost: 200M CFA)	Climate Finance, NARC Initiative	Costa Rica's park system
Far North	Solar energy potential	Solar Micro-Grid Technician Training Centre in Maroua (Cost: 500M CFA)	Climate Finance, Citizen Equity	Bangladesh's solar home system programme
Littoral	Port logistics & trade	Port Logistics Simulator & Training Academy (PPP, Cost: 2.5B CFA)	PPPs, NARC Initiative	Rotterdam's port training facilities
North	Cotton textiling	Textile Fabrication Lab with modern looms (Cost: 700M CFA)	Climate Finance, NARC Initiative	Vietnam's textile industry growth
North West	Tech innovation	Bamenda Tech Hub: Co-working space with high-speed internet (Cost: 800M CFA)	NARC Initiative, Citizen Equity	Rwanda's innovation hubs
South	Sustainable mining	Centre for Sustainable Mining & Environmental Management (Cost: 1.2B CFA)	PPPs, NARC Initiative, Climate Finance	Botswana's mining governance
South West	Agro processing & port access	Agro-Export Incubator in Limbe (Cost: 1.5B CFA)	Climate Finance, PPPs, NARC Initiative	Chile's agricultural export model
West	High-yield agriculture	Precision Agriculture Training & Drone Leasing Service (Cost: 450M CFA)	PPPs, Diaspora Bonds, Climate Finance	Israel's agri-tech sector

Table K.4: Infrastructure Project Prioritisation Matrix. (From Chapter 6.)

Project	Region	Economic Impact (CREATE-OWN-GROW)	Conflict Reduction / Social Cohesion	MINTP ID	Primary Financing Mechanism
Douala-Yaoundé Corridor Rehabilitation	Littoral / Centre	Maximum (Connects economic & political capitals)	High (vital for 70% of formal trade)	L-C-RD01	NARC Initiative
Kumba-Douala Road rehabilitation	South West	Very High (Primary export corridor)	High (Restores main economic artery)	SW-RD01	NARC Initiative
Bamenda-Ndop rehabilitation	North West	High (Enables agro-processing zone)	High (Restores economic hope)	NW-RD12	NARC Initiative, Citizen Equity
Maroua-Bogo highway	Far North	Medium (Improves security logistics)	High (Integrates border regions)	FN-RD04	Climate Finance, Diaspora Bonds
Bertoua-Batouri corridor	East	Medium (Links farming areas)	Medium (Reduces isolation)	E-RD07	Climate Finance, NARC Initiative
Douala port expansion	Littoral	Very High (National export capacity)	Medium (Creates national jobs)	L-PT01	PPPs, Diaspora Bonds
Garoua-Ngaoundéré link	North / Adamawa	High (Connects pastoral/agricultural zones)	High (Enables trade)	N-AD-RD02	Climate Finance, NARC Initiative
Yaoundé-Bafoussam corridor	Centre / West	High (Connects political & economic hubs)	Medium (Enables commerce)	CE-WE-RD03	NARC Initiative, Diaspora Bonds
Sangmélima-Kribi road	South / Littoral	High (Links mining & port)	Medium (Economic development)	S-L-RD05	PPPs, NARC Initiative

Table K.5: The Peace Dividend in Action. (From Chapter 7.)

Region	OWN Project	CREATE Project	GROW Project	Outcome	Funding Mechanism
South West	Plantain corridor titling	Chips/flour processing	Biomass energy from waste	1,200 jobs + 2.4B CFA exports	NARC Initiative, Citizen Equity
North West	Cocoa farm formalisation	Butter export facility	Solar-powered irrigation	800 jobs + 1.1B CFA revenue	Climate Finance, NARC Initiative
West	Coffee land titling	Roasting & packaging plant	Road rehabilitation	500 jobs + 1.8B CFA revenue	NARC Initiative, PPPs
Littoral	Port expansion land	Digital logistics hub	High-speed internet fibre	3,000 jobs, 30% trade increase	Diaspora Bonds, PPPs
Centre	Urban property formalisation	Tech incubator hub	Stable power grid	2,000 tech jobs created	Citizen Equity, Sovereign Tech Fund
East	Artisanal mining formalisation	Mineral processing unit	Secure resource corridors	1,500 jobs, +72B CFA revenue captured	NARC Initiative, AfDB loans
Adamawa	Pastureland demarcation	Meat processing plant	Cold chain logistics	900 jobs, 15% export growth	Climate Finance, NARC
Far North	Irrigable land titling	Climate-resilient grain silos	Solar micro-grids	1,100 jobs, food security for 500k	Climate Finance (80%), NARC (20%)
South	Rainforest conservation titles	Sustainable timber processing	Eco-tourism access roads	600 jobs, 500% tourism growth	GCF grants, Diaspora Bonds
Bakassi	Maritime zone titles	Modern fishing port & processing	Water treatment plant	700 jobs, \$1B annual potential unlocked	Direct Oil Royalties (NARC)
Littoral / Centre	Formalisation of roadside enterprise zones	Douala-Yaoundé Corridor Rehabilitation (enabling logistics)	Digital fibre optic conduit & solar lighting	5,000+ construction jobs; 30% reduction in domestic logistics costs;	NARC Initiative (40%), PPPs (35%), Diaspora Bonds (25%)

Table K.6: Context-Specific Reconciliation Mechanisms. (From Chapter 8.)

Region	Primary Conflict Driver	Primary Mechanism	Economic Integration Project	Primary Financing Mechanism
North West	Separatist Violence	Traditional Justice Circles (Kwifoyn)	High-Value Coffee Co-operatives	NARC Initiative, Citizen Equity
South West	Resource Conflict	Land Commission & Mediation (Ngwe)	Plantain Processing Hubs	NARC Initiative, Citizen Equity
Far North	Boko Haram Insurgency	Islamic Peace Councils (Sulhu)	Solar-Powered Irrigation Schemes	Climate Finance, NARC Initiative
Adamawa	Farmer-Herder Clashes	Cross-Group Dialogue Forums	Joint Grazing & Farming Zones	Climate Finance, NARC Initiative
East	Transnational Crime	Customary Arbitration	Community Forestry & Protection	Climate Finance, Diaspora Bonds
Littoral	Urban Migration Tensions	Neighbourhood Festivals	Mixed-Neighbourhood Civic Projects	Diaspora Bonds, Citizen Equity
West	Land Pressure	Mediation & Dialogue	Agro-Industrial Partnership	Citizen Equity, Diaspora Bonds
Centre	Political Grievance	Public Dialogue	Youth Innovation Hub	NARC Initiative, Diaspora Bonds
South	Marginalisation	Cultural Revitalisation	Ecotourism Ventures	Climate Finance, Citizen Equity
North	Economic Neglect	Local Peace Committees	Livestock & Grain Trade	Climate Finance, NARC Initiative

Table K.7: Regional Industrial Specialisation Plan. (From Chapter 10.)

Region	Competitive Advantage	Industrial Cluster Focus	Anchor Project	Primary Financing
Adamawa	Livestock	Meat & dairy processing	Mobile abattoirs & cold chain	Climate Finance, Citizen Equity
Centre	Governance, Tech	GovTech, ICT services	GovTech Lab for civic apps	NARC Initiative, Diaspora Bonds
East	Biodiversity	Eco-products, non-timber forest products	Community essential oils distillery	Climate Finance, NARC
Far North	Solar Energy	Solar tech manufacturing & maintenance	Solar panel assembly plant	Climate Finance, Diaspora Bonds
Littoral	Port Access	Logistics, packaging, trade	Port Logistics Academy	PPPs, Diaspora Bonds
North	Cotton	Textiles & garment manufacturing	Modern textile fabrication lab	NARC Initiative, Climate Finance
North West	Tech Talent	Software development, hardware innovation	Bamenda Tech Hub	NARC Initiative, Citizen Equity
South	Mining	Sustainable mining equipment & services	Centre for Sustainable Mining	PPPs, NARC
South West	Agro-Processing	Coffee, cocoa, plantain value-addition	Agro-Export Incubator (Limbe)	Climate Finance, Citizen Equity
West	High-Yield Agriculture	Agri-tech, precision farming	Drone leasing service for farmers	Diaspora Bonds, Climate Finance

Data sources: Regional development plans; Ministry of SMEs baseline studies

Table K.8: Sovereign-Funded Tech Solutions for National Impact. (From Chapter 11.)

Region	Primary Tech Solution	CREATE-OWN-GROW Link	Impact	Primary Financing
South West	Telemedicine Apps	GROW (human capital)	40% faster diagnosis	NARC Initiative
West	SMS Crop Alert Systems	CREATE (loss reduction)	25% higher yields	Climate Finance
Far North	Mobile Drought Insurance	OWN (financial resilience)	Payouts within 48 hours	Climate Finance, Diaspora Bonds
North West	Blockchain Land Registry	OWN (secure titles)	60% fewer land disputes	NARC Initiative
Adamawa	Livestock Tracking Apps	OWN (theft reduction)	15% fewer animal losses	Citizen Equity
East	Drone Monitoring	OWN (resource protection)	40% less illegal activity	Climate Finance
South	E-Learning Platforms	GROW (human capital)	Improved educational outcomes	NARC Initiative
Littoral	Logistics Optimisation AI	CREATE (efficiency)	30% faster clearance times	PPPs, Diaspora Bonds
Centre	Cocoa Traceability Apps	CREATE (value addition)	Higher price for certified beans	Diaspora Bonds
North	Shea Butter E-Marketplace	CREATE (market access)	Increased income for women co-ops	Citizen Equity

Data sources: Regional digital needs assessments; Cameroon Digital Academy feasibility studies

Table K.9: Funding Contingency Matrix. (From Chapter 12.)

Pillar	Underperformance Scenario	Contingency Measures
NARC Initiative	Lower-than-expected asset recovery (e.g., 40% of target)	- Accelerate Diaspora Bond issuance with enhanced terms
NARC Initiative	Lower-than-expected asset recovery (e.g., 40% of target)	- Reallocate Climate Finance to priority infrastructure
NARC Initiative	Lower-than-expected asset recovery (e.g., 40% of target)	- Implement a 10% efficiency saving across all projects
Diaspora Bonds	Weak subscription (e.g., 50% of target)	- Expand Citizen Equity offerings with tax incentives
Diaspora Bonds	Weak subscription (e.g., 50% of target)	- Front-load NARC Initiative prosecution phase
Diaspora Bonds	Weak subscription (e.g., 50% of target)	- Seek co-financing from aligned regional development banks
Climate Finance	Grant approvals delayed or denied	- Reallocate NARC funds to climate-vulnerable projects
Climate Finance	Grant approvals delayed or denied	- Create green Citizen Equity offerings for specific environmental projects
Climate Finance	Grant approvals delayed or denied	- Use Diaspora Bonds for climate-resilient infrastructure
Citizen Equity	Low community participation	- Enhance financial literacy campaigns
Citizen Equity	Low community participation	- Offer matched funding from NARC for community projects
Citizen Equity	Low community participation	- Simplify investment mechanisms through mobile platforms

Table K.10: The Preparatory CapEx. (From Chapter 12.)

Component	Cost (CFA)	Rationale
Blockchain Development	3.5 Billion	Custom smart contract layers, node infrastructure, and mobile interface.
Biometric & ID Integration	1.8 Billion	Handheld verification devices for local committees and API integration.
Satellite & IoT Monitoring	2.2 Billion	Subscription to high-res commercial satellite feeds and site-level IoT sensors.
NSB Command Centre	1.5 Billion	Hardware, server stacks, and secure communication uplinks.
Training & Capacity	1.0 Billion	Training for divisional leaders, local auditors, and tech support teams.
TOTAL FOUNDATIONAL	10.0 Billion	(~1.3% of the 750B CFA Annual Target)

Table K.11: Needs-Based Regional Financing Allocation. (From Chapter 12.)

Region	Primary Need	Financing Mechanism	Guardrails
Adamawa	Agricultural modernisation	Climate finance (50%), Citizen Equity (50%)	Focus on smallholder farmer co-operatives
Centre	Industrial upgrading	PPPs (50%), Diaspora bonds (30%), NARC (20%)	Strict environmental standards
East	Eco-tourism & infrastructure	Climate finance (60%), NARC (40%)	Community benefit agreements mandatory
Far North	Climate adaptation	Climate grants (80%), Citizen Equity (20%)	Community ownership models
Littoral	Port modernisation	PPPs (60%), NARC (40%)	Mandatory national equity share
North	Irrigation & food security	Climate finance (70%), NARC (30%)	Local job requirements
North West	Post-conflict rebuilding	NARC Grants (70%), Citizen Equity (30%)	No debt financing; local hiring mandates
West	Agri-processing & tourism	PPPs (40%), Diaspora bonds (40%), Climate (20%)	Profit-sharing with local communities
South	Rural infrastructure & ports	PPPs (50%), NARC (30%), Climate (20%)	Environmental impact assessments
South West	Economic revitalisation	Climate finance (40%), PPPs (40%), NARC (20%)	Local job requirements; benefit agreements
Douala-Yaoundé Corridor	National priority; high revenue generation potential	NARC (40%), PPPs (35%), Diaspora bonds (35%)	Symbolic reconnection of political and economic capitals

Data sources: Regional development needs assessments; Sovereign financing allocation guidelines

Table K.12: Phase 1: The Foundation — Laying the Bedrock of Trust. (From Chapter 13.)

Focus Area	Key Activities	Lead Agency	Key Performance Indicator (KPI)
The Architecture of Reconciliation	- Enact genuine Special Status for North West & South West	National Assembly, Presidency, Civil Society	- 80% public trust in Reconciliation Commissions
The Architecture of Reconciliation	- Establish National & Regional Reconciliation Commissions across all 10 regions	National Assembly, Presidency, Civil Society	- 50% reduction in conflict-related incidents
The Architecture of Reconciliation	- Launch national dialogue and truth-telling processes	National Assembly, Presidency, Civil Society	- % of population reporting increased inter-community trust in annual perception surveys
Economic Piloting	- Launch integrated CREATE-OWN-GROW projects in Kupe-Muanenguba (Chapter 9), explicitly designed as inter-community cooperation models (e.g., plantain processing, ecotourism, biomass energy)	Council Heads, MINEPAT, Private Sector	- 30% increase in local household income
Economic Piloting	- Launch integrated CREATE-OWN-GROW projects in Kupe-Muanenguba (Chapter 9), explicitly designed as inter-community cooperation models (e.g., plantain processing, ecotourism, biomass energy)	Council Heads, MINEPAT, Private Sector	- Creation of 500+ new jobs
Economic Piloting	- Launch integrated CREATE-OWN-GROW projects in Kupe-Muanenguba (Chapter 9), explicitly designed as inter-community cooperation models (e.g., plantain processing, ecotourism, biomass energy)	Council Heads, MINEPAT, Private Sector	- Number of joint economic initiatives between previously conflicting communities
Economic Piloting	- Implement Quick Wins portfolio	Council Heads, MINEPAT, Private Sector	- Number of joint economic initiatives between previously conflicting communities
Enabling Environment	- Pass Model Decentralisation Act	MINAT, MINEE, MINTP	- Act passed by Q4 T+1
Enabling Environment	- Commence feasibility for key energy & road projects across all 10 regions	MINAT, MINEE, MINTP	- 100% of feasibility studies completed
Enabling Environment	- Establish National Transformation Council	MINAT, MINEE, MINTP	- Council operational with all stakeholders

Data sources: Phase 1 implementation framework derived from coordinated ministry plans
